1. Aims

The aims of this Accessibility Plan are to ensure that Queen Marys' Grammar School continues to work towards increasing the accessibility of provision for all students, staff and visitors to the school. The Accessibility Plan will contain relevant actions to:

- Increase the extent to which disabled students can participate in the curriculum
- Improve the physical environment of the school to enable disabled students to take better advantage of education, benefits, facilities and services provided
- Improve the availability of accessible information to disabled students

Our school aims to treat all its students fairly and with respect. This involves providing access and opportunities for all students without discrimination of any kind.

Queen Marys Grammar School is committed to a fair and equal treatment of all individuals able bodied or disabled and, on a continuous basis, will work towards improving access to the physical environment, to the curriculum and to the provision of information in order to ensure access for all.

At Queen Marys Grammar School, we are committed to providing a fully accessible environment which values and includes all pupils, staff, parents and visitors, regardless of their education, physical, sensory, social, spiritual, emotional and cultural needs. We are further committed to challenging attitudes about disability and accessibility and to developing a culture of awareness, tolerance and inclusion. We are committed to providing a full curriculum to as many students as possible and we aims to enable all young people to achieve their full potential, academically, emotionally, physically and spiritually. In particular, the Governing Body recognises its responsibility under the Equality Act 2010 which prevents discrimination against disabled people in their access to education.

Our school is also committed to ensuring staff are trained in equality issues with reference to the Equality Act 2010, including understanding disability issues.

The school supports any available partnerships to develop and implement the plan. We work closely with the sensory support service to ensure that we are informed of any difficulties that students with VI or HI have in accessing the school site.

Our school's complaints procedure covers the accessibility plan. If you have any concerns relating to accessibility in school, this procedure sets out the process for raising these concerns.

We have included a range of stakeholders in the development of this accessibility plan, including students, parents/carers, staff and governors of the school.

2. Legislation and guidance

This document meets the requirements of [schedule 10 of the Equality Act 2010](#) and the Department for Education (DfE) [guidance for schools on the Equality Act 2010](#).

The Equality Act 2010 defines an individual as disabled if he or she has a physical or mental impairment that has a 'substantial' and 'long-term' adverse effect on his or her ability to undertake normal day to day activities.

Schools are required to make 'reasonable adjustments' for students with disabilities under the Equality Act 2010, to alleviate any substantial disadvantage that a disabled student faces in comparison with non-disabled students. This can include, for example, the provision of an auxiliary aid or adjustments to premises.

Queen Mary's Grammar School Accessibility Plan

The plan aims to improve access to all aspects of education within Queen Mary's Grammar School and is organized in a way that helps to remove any existing barriers to student learning. It also aims to widen the opportunities for including more students within the school and to look positively at ways in which existing difficulties can be overcome. In this way the Governing Body is showing its commitment both to the members of the school and to the wider community based on the promotion of self-respect and respect for others.

The plan has three sections:

1. Improvements in access to the curriculum by:

- Providing for all students a curriculum which is appropriate to their needs.
- Ensuring that the curriculum is delivered in such a way that all students, regardless of any impairment, may benefit fully from it.

2. Physical improvements to increase access to education and associated services by:

- Ensuring that all the school's buildings and grounds are fully accessible to students with mobility, sensory and other impairments.
- Providing appropriate educational equipment and physical aids to ensure that educational programmes in the school can be fully accessed by all students.

3. Improvements in the provision of information in a range of formats for disabled students by:

- Providing for students and their parents/carers, information about the academy and its curriculum in a format that takes account of any disabilities.

3. Action plan

This action plan sets out the aims of our accessibility plan in accordance with the Equality Act 2010.
