

# QMGS Key Stage 5 Curriculum Topics

## Academically-Ambitious and Accessible to All

Queen Mary's Grammar School believes that the Quality of Education experienced by students is driven by a curriculum in its broadest sense: the entirety of a student's learning experience, in lessons and beyond. We aim to design and embed a curriculum that is planned and sequenced to develop in our highly academic students the knowledge and skills necessary for their future roles in society, while ensuring that the balanced curriculum offer is accessible to all.

Subject	Year 12	Year 13
Art	<p><b><u>Portfolio (Personal investigation – 60%)</u></b></p> <p>Learners will produce work in response to a centre or learner-set starting point title. From this a portfolio of practical work is developed to show detailed and informed progression of ideas and influences towards a final outcome/response.</p> <p>Work is initially produced in class and at home to build on the development of skills. Individual work will build a portfolio which is marked against the 4 assessment objectives.</p> <ul style="list-style-type: none"> <li>• (A03) Record ideas, observations and insights relevant to intentions, reflecting critically on work and progress. This is covered through the completion of primary and secondary observations completed on a variety of mediums to focus on colour, line, form, tone &amp; texture. All pupils are given the working title of 'Overlap' which they use to decide on the subjects for their observations for A03.</li> <li>• (A01) Artist Research. Develop ideas through sustained and focused investigations informed by contextual and other sources, demonstrating analytical and critical understanding. Pupils are expected to source their own artists that reflect their individual project direction. For each artist explored the following is expected;             <ol style="list-style-type: none"> <li>1. Information about the artists and supporting examples of their work.</li> <li>2. Written analysis and personal opinion of the work.</li> <li>3. A piece of artwork in the style of the artist.</li> <li>4. Experimental pieces linked to the artist's techniques, working title and own project direction.</li> </ol> </li> </ul>	<p><b><u>Builds on from Year 12 through ...</u></b></p> <ul style="list-style-type: none"> <li>• Analysing year 12 portfolio. Assessing that the project is clearly linking related study to artwork and the portfolio. Reflection made against the assessment objectives of AO3, AO2 &amp; A01. Any possible gaps from missed learning highlighted and individual action plans for year 13 developed.</li> <li>• (A04) December – January. A personal response with sophisticated realisation of intentions. Understanding of visual language, applying formal elements, is perceptive and sophisticated. Completion of the coursework Portfolio and 3000 word written study reflecting on the contextual influences, research and detailed analysis of the work of others by February.</li> </ul> <p><b><u>Externally set Exam project (40%)</u></b></p> <ol style="list-style-type: none"> <li>1. From February pupils will be given their OCR Exam paper where they will start working on <b>(A03)</b> which focuses on the recording of ideas, observations and insights relevant to their chosen exam question.</li> <li>2. From March pupils will focus on <b>(A01)</b> where they will explore chosen artists that inspire their own art work.</li> <li>3. From April pupils will focus on <b>(A02)</b> and the experimentation of final outcome ideas, medias to demonstrate clear development of ideas.</li> <li>4. During the 15 hour Art exam after Easter, pupils will produce a final outcome for <b>(A04)</b> which is to reflect their chosen exam question, development and artist inspirations.</li> </ol>

# QMGS Key Stage 5 Curriculum Topics

	<ul style="list-style-type: none"> <li>• (AO2) Experimenting with new materials. Explore and select appropriate resources, media, materials, techniques and processes, reviewing and refining ideas as work develops. During the summer term pupils are to develop their individual projects to reflect their chosen artists and chosen theme based on the 'Overlap' starting point. At this point a variety of mediums will be explored such as etching batik, printing, photography, Photoshop etc.</li> <li>• Related study; Research, gallery visits and artists interviews conducted and a first draft of their written study completed over the summer term and summer break.</li> </ul>	<p>All work will be presented to be marked and moderated after the 15 hour Art exam. Marks are submitted to OCR in May and await candidate selection for moderation.</p> <p><b>Coursework and Exam projects will be externally moderated with an exhibition to present selected work.</b></p>
<b>Biology</b>	<ul style="list-style-type: none"> <li>• 1 Biological molecules</li> <li>• 2 Cells</li> <li>• 3 Organisms exchange substances with their environment</li> <li>• 4 Genetic information, variation and relationships between organisms</li> </ul>	<ul style="list-style-type: none"> <li>• 5 Energy transfers in and between organisms</li> <li>• 6 Organisms respond to changes in their internal and external environments</li> <li>• 7 Genetics, populations, evolution and ecosystems</li> <li>• 8 The control of gene expression</li> </ul>
<b>Business</b>	<p><b>Theme 1</b></p> <ul style="list-style-type: none"> <li>• meeting customer needs</li> <li>• the market</li> <li>• marketing mix and strategy</li> <li>• managing people</li> <li>• entrepreneurs and leaders.</li> </ul> <p><b>Theme 2</b></p> <ul style="list-style-type: none"> <li>• raising finance</li> <li>• financial planning</li> <li>• managing finance</li> <li>• resource management</li> <li>• external influences</li> </ul>	<p><b>Theme 3</b></p> <ul style="list-style-type: none"> <li>• business objectives and strategy</li> <li>• business growth</li> <li>• decision-making techniques</li> <li>• influences on business decisions</li> <li>• assessing competitiveness</li> <li>• managing change.</li> </ul> <p><b>Theme 4</b></p> <ul style="list-style-type: none"> <li>• globalisation</li> <li>• global markets and business expansion</li> <li>• global marketing</li> <li>• global industries and companies (multinational corporations).</li> </ul>
<b>Chemistry</b>	<ul style="list-style-type: none"> <li>• Transition skills</li> </ul> <p><b>Physical chemistry</b></p>	<p><b>Physical chemistry</b></p> <ul style="list-style-type: none"> <li>• Gas equilibria</li> <li>• Kinetics</li> </ul>

# QMGS Key Stage 5 Curriculum Topics

	<ul style="list-style-type: none"> <li>• Amount of substance</li> <li>• Bonding</li> <li>• Atomic structure</li> <li>• Kinetics</li> <li>• Energetics</li> <li>• Equilibria</li> <li>• Redox</li> </ul> <p><b>Inorganic chemistry</b></p> <ul style="list-style-type: none"> <li>• Halogens</li> <li>• Group 2</li> <li>• Periodicity</li> </ul> <p><b>Organic chemistry</b></p> <ul style="list-style-type: none"> <li>• Introduction to organic chemistry</li> <li>• Alkanes</li> <li>• Halogenoalkanes</li> <li>• Alkenes</li> <li>• Alcohols</li> <li>• Organics analysis</li> </ul>	<ul style="list-style-type: none"> <li>• Thermodynamics</li> <li>• Acids and bases</li> <li>• Electrochemistry</li> </ul> <p><b>Inorganic chemistry</b></p> <ul style="list-style-type: none"> <li>• Periodicity</li> <li>• Transition metals</li> <li>• Reactions of inorganic compounds</li> </ul> <p><b>Organic chemistry</b></p> <ul style="list-style-type: none"> <li>• Nomenclature and isomerism</li> <li>• Compounds containing the carbonyl group</li> <li>• Aromatic chemistry</li> <li>• Amines</li> <li>• Polymerisation</li> <li>• Amino acids, proteins, and DNA</li> <li>• Organic synthesis and analysis</li> <li>• Structure determination</li> </ul> <p>Chromatography</p>
<b>Computer Science</b>	<p><b>Paper 1</b></p> <ul style="list-style-type: none"> <li>• The characteristics of contemporary processors, input, output and storage devices. (1.1)</li> <li>• Software and software development (1.2)</li> <li>• Exchanging data (1.3)</li> <li>• Data types, data structures and algorithms (1.4)</li> </ul> <p><b>Paper 2</b></p> <ul style="list-style-type: none"> <li>• Elements of computational thinking (2.1)</li> <li>• Problem solving and programming (2.2)</li> </ul>	<p><b>Paper 1</b></p> <ul style="list-style-type: none"> <li>• Exchanging data (1.3)</li> <li>• Data types, data structures and algorithms (1.4)</li> <li>• Legal, moral, cultural and ethical issues. (1.5)</li> </ul> <p><b>Paper 2</b></p> <ul style="list-style-type: none"> <li>• Algorithms (2.3)</li> </ul> <p><b>Programming Project</b></p>
<b>Design &amp; Technology</b>	<p><b>The core content:</b></p> <ul style="list-style-type: none"> <li>• Woods</li> <li>• Metals</li> <li>• Plastics</li> </ul>	<p>The year 13 DT curriculum is split up into 3 keys elements:</p> <p><b>1. NEA</b></p>

# QMGS Key Stage 5 Curriculum Topics

- Electronics
- Textiles
- Paper and board
- New and emerging technologies
- Sustainability
- Designers and companies
- Ergonomics
- Anthropometrics

All of the above topics have been touched on at KS4 BUT they are explored in far more detail at A level.

The SoW is available as a separate document.

Each core content module is tackled through a design and make project with associated theory content and homework.

## Current projects:

- Vacuum bag press project
- Steam bending kitchen utensils
- CAD/CAM project (3D printing)
- QMGS library book stand
- Enamelling
- Skills stick
- STARPACK national competition
- Mini-NEA in preparation for the 6.2 NEA

## Graphics is taught through each project:

- Sketching
- Isometric
- Perspective
- Oblique
- Exploded views

An iterative design challenge that should take up about 55 hours of genuine working time for the students in lessons (and with some homework)

This will test the students ability to:

- Identify problems within a context
- To work with a genuine client
- To design for a genuine target market
- Collect relevant research data
- Produce a range of creative design ideas through sketching, models or CAD
- Evaluate their work as it progresses
- Plan and make a prototype model
- Test and evaluate the final prototype model
- Present the NEA as a formal document

## 2. THEORY

Topics include:

- Design History
- Designers
- Companies
- Iconic products
- Scale of production
- Sustainability
- Modern industrial practice
- Developments in technology
- Marketing
- Digital design
- Social, moral and ethical issues in DT

## 3. REVISION

The work covered in year 12 (and at KS3/4) will be revisited on a regular basis. The regular forms tests will revisit knowledge taught in previous years and lessons.

# QMGS Key Stage 5 Curriculum Topics

	<ul style="list-style-type: none"> <li>Sectional views</li> <li>Orthographic projection</li> </ul> <p><b>NB: All of the above have been introduced at KS3/4 BUT a far higher level of competence is required at A level</b></p>	
<b>Economics</b>	<p><b>Microeconomics (Markets and Market Failure):</b></p> <ul style="list-style-type: none"> <li>Economics methodology and the economic problem</li> <li>Demand and elasticities of demand</li> <li>Supply and price elasticity</li> <li>Market equilibrium and interrelationships</li> <li>Applications of demand and supply</li> <li>Production, costs and revenue</li> <li>Competitive and concentrated markets</li> <li>Market mechanism and market failure</li> <li>Government intervention and failure</li> </ul> <p><b>Macroeconomics (The National Economy):</b></p> <ul style="list-style-type: none"> <li>National Economic Performance</li> <li>Aggregate Demand and aggregate Supply</li> <li>Aggregate Supply and equilibrium</li> <li>Economic Growth</li> <li>Inflation &amp; Deflation</li> <li>Unemployment</li> <li>The Balance of Payments</li> <li>Monetary Policy</li> <li>Fiscal &amp; Supply Side Policies</li> </ul>	<p><b>Microeconomics (Markets and Market Failure):</b></p> <ul style="list-style-type: none"> <li>Individual economic decision making (Behavioural Economics)</li> <li>Theory of the firm: Production, Costs and Revenue</li> <li>Market Structures</li> <li>Competition Policy</li> <li>Revisiting market failure and government intervention</li> <li>The Labour Market</li> <li>Distribution of income and wealth</li> </ul> <p><b>Macroeconomics (The National and International Economy):</b></p> <ul style="list-style-type: none"> <li>The International economy</li> <li>Revisiting and developing macroeconomic theory</li> <li>Revisiting fiscal and supply-side policies</li> <li>Financial markets and monetary policy</li> </ul>
<b>English Language &amp; Literature</b>	<p><b>OCR H474 (EMC)</b></p> <ul style="list-style-type: none"> <li>Orientation work on key skills;</li> <li>Prep for examination- reading tasks on <b>Exploring non-fiction written and spoken texts (C1)</b></li> <li>Prep for examination: <b>The language of poetry and plays (C 2)</b> Carol Ann Duffy or William Blake</li> <li>Begin work on <i>The Great Gatsby</i> <b>(C3)</b></li> </ul>	<ul style="list-style-type: none"> <li>Completion of <i>Jerusalem or Streetcar</i>(C2)</li> <li>Prep for <b>Component 3 Reading as a writer, writing as a reader:</b> inc <i>The Great Gatsby</i> and creative writing</li> <li>Completion of the two NEA tasks</li> <li>Revision and supplementary work on C1 and C2 above.</li> </ul>

<b>Mandarin Chinese</b>	<p><b>Family</b></p> <ul style="list-style-type: none"> <li>• family structure: members, 3 generation household</li> <li>• Changing attitudes towards marriage and dating in China</li> <li>• one child policy; the changing child policy in China</li> <li>• generation gap; conflicts in the family; young people and the older generation; attitudes towards young people in the family environment.</li> <li>• Aging population; status of the elderly and responsibility for their care</li> </ul> <p><b>Traditions &amp; Festivals</b></p>	<p><b>Economy &amp; Environment</b></p> <ul style="list-style-type: none"> <li>• Economic development and issues</li> <li>• Modern Chinese history; Economic boom; Current climate</li> <li>• Environmental issues and consequences</li> <li>• Environmental protection</li> <li>• Green/eco living awareness and movement</li> <li>• Government schemes to reduce pollution and protect environment</li> </ul> <p><b>The impact of the 1978 economic reform in China</b></p> <ul style="list-style-type: none"> <li>• Causes, consequences, and issues</li> <li>• Super-cities in China; Why do they exist; What are they like</li> </ul>

# QMGS Key Stage 5 Curriculum Topics

	<ul style="list-style-type: none"> <li>• Traditions and customs; Relation to agriculture; the reasons for celebrating traditional festivals in modern era</li> <li>• Mid-autumn festival; Folk tale; Customs and celebration</li> <li>• Dragon-boat festival; Folk tale; Customs and celebration</li> <li>• Qing Ming festival; Folk tale; Customs and celebration</li> </ul> <p><b>Education &amp; Work</b></p> <ul style="list-style-type: none"> <li>• School life; Typical school day and life; patterns of curriculum</li> <li>• Education system in China; further and higher education provision; inequality of access to quality education</li> <li>• Comparison between UK's and China's education</li> <li>• Student issues; Study Pressure; Parental pressure; Gaokao (University entrance exam)</li> <li>• Employment opportunities; Varied work opportunities</li> <li>• Social-economic gap; Barriers to equal work opportunities; "Peasant workers"</li> <li>• Work-life balance; Work ethics</li> </ul> <p><b>Cultural activities &amp; Internet and social media</b></p> <ul style="list-style-type: none"> <li>• Literature in the Chinese speaking world</li> <li>• Film in the Chinese-speaking world</li> <li>• Television in the Chinese-speaking world; Chinese music</li> <li>• the role and influence of the internet and social media in all aspects of life</li> <li>• the mass media (including broadcast media, newspaper media and internet media) and how it is evolving</li> <li>• advantages and disadvantages of social media</li> </ul> <p><b>Literature analysis 《一只叫风的鸽子》 A Very Special Pigeon</b></p>	<ul style="list-style-type: none"> <li>• Urban migration; The phenomenon; Causes and effects</li> <li>• Rich-poor gap and inequality of wealth and access to education, health and social care</li> </ul> <p><b>China-UK relationship</b></p> <ul style="list-style-type: none"> <li>• Trade; Trades in history; Trades in the modern time</li> <li>• Cultural exchanges</li> <li>• Chinese culture in the UK; British culture in China</li> <li>• British Council's role</li> <li>• Role of 中国语合中心 Center for Language Education and Cooperation</li> <li>• Educational exchanges; Existing exchanges</li> <li>• Future envisions</li> </ul> <p><b>Film 《请投我一票》 2007; Please vote for me!</b></p>
<p><b>Maths</b></p>	<p><b>Year 12 Maths</b> Students will have covered all the AS-content for AS Mathematics by the end of Year 12</p>	<p><b>Year 13 Maths</b> Whilst in year 13, pupils continue to work through the year 2 content and cover topics outlined below:</p>

# QMGS Key Stage 5 Curriculum Topics

<p><b>and Further Maths</b></p>	<p>The first term of A-Level mathematics is designed to give pupils from all schools opportunity to develop their mathematics, mastering the skill from GCSE, which are essential for success throughout the course. To aid students, they have access to a textbook, and personal log-in details to <a href="https://www.integralmaths.org">Integralmaths.org</a>. This allows pupils access to a wide range of videos and walk-throughs, as well as additional notes, examples and exercises.</p> <p>The list of topics outlines the majority of the Year 1 work:</p> <ul style="list-style-type: none"> <li>Linear equations</li> <li>Quadratic equations</li> <li>Reciprocal relations</li> <li>Functions</li> <li>Inequalities</li> <li>Surds and Indices</li> <li>Calculus</li> <li>Logarithms and Exponentials</li> <li>Factor theorem and polynomials</li> <li>Binomial expansion</li> <li>Equations of circles</li> <li>Trigonometric functions and equations</li> <li>Proof and Reasoning</li> <li>Vectors in 2 dimensions</li> <li>Mechanics: Kinematics</li> <li>Mechanics: Forces and motion</li> <li>Mechanics: Variable acceleration models</li> <li>Statistics: Probability</li> <li>Statistics: single variable analysis</li> <li>Statistics: Bivariate data</li> <li>Statistics: Binomial distribution.</li> </ul> <p>After the end of year exams, which usually happen in May/June, we then move forward to working through the Year 2 content. The topics that are studied before the end of the year are:</p>	<p>Further Trigonometric Functions</p> <ul style="list-style-type: none"> <li>Differentiation of trig, log and exponential functions</li> <li>Chain, product and quotient rule for differentiation</li> <li>Implicit differentiation</li> <li>Integration of trig, log and exponential functions</li> <li>Parametric functions</li> <li>Parametric differentiation</li> <li>Integration by substitution</li> <li>Integration by parts</li> <li>Differential Equations</li> <li>Numerical Methods</li> <li>Vectors in 3 dimensions.</li> <li>Mechanics: Equations of Projectiles</li> <li>Mechanics: Frictional forces and motion</li> <li>Mechanics: Forces acting at an angle</li> <li>Mechanics: Moments</li> <li>Statistics: Conditional probability</li> <li>Statistics: Normal Distribution</li> <li>Statistics: Hypothesis testing</li> </ul> <p>The assessment for A-Level maths consists of 3 papers, Pure and Mechanics, Pure and Statistics (where there is some pre-release material of a large data set). The third paper is a pure and comprehension paper, this tests the pupils ability to use their mathematical knowledge in an unfamiliar situation.</p> <p>These skills students develop are all required for the A-Level specification, and are outlined in the document found here: <a href="https://www.ocr.org.uk/Images/308740-specification-accredited-a-level-gce-mathematics-b-mei-h640.pdf">https://www.ocr.org.uk/Images/308740-specification-accredited-a-level-gce-mathematics-b-mei-h640.pdf</a> the teachers here at QM might well extend these skills to test pupils knowledge and integrity so that they are thoroughly prepared for examinations</p> <p><b>Year 13 Further maths</b></p> <p>This is taught by 4 teachers, covering the four topics for assessment:</p>
---------------------------------	--	--

# QMGS Key Stage 5 Curriculum Topics

	<p>Partial fractions Sequences and Series General binomial expansion Radians Modulus functions Composite Functions</p> <p><b>Year 12 Further Maths</b> In year 12 we cover 90% of the pure topics, excluding the numerical methods, and the mechanics and statistics sections of the Year 2 course (which can be found in the year 13 section of maths).</p> <p>In addition to the vast majority of the A-level course being taught in year 12, we also teach the year 1 further maths core content. This covers the following topics Introduction to Matrices Introductions to Complex numbers Roots of polynomials Proof Vector equations Standard summations results</p>	<p>The Core content accounts for 50% of the course, and the other <i>modules</i> are 16.6% each.</p> <p>Numerical Methods</p> <ul style="list-style-type: none"> <li>• Numerical approximations</li> <li>• Approximating functions</li> <li>• Numerical solutions</li> <li>• Numerical Integration</li> <li>• Numerical Differentiation</li> <li>• Interpolating polynomials</li> <li>• Rates of convergence</li> </ul> <p>Mechanics minor</p> <ul style="list-style-type: none"> <li>• Forces of rigid bodies</li> <li>• Work-Energy Principle</li> <li>• Power</li> <li>• Impulse and Momentum</li> <li>• Centres of mass</li> </ul> <p>Statistics minor</p> <ul style="list-style-type: none"> <li>• Discrete distributions, inc. Poisson distribution</li> <li>• Continuous distributions</li> <li>• Regression analysis</li> <li>• Chi-Squared test</li> <li>• Further Hypothesis tests.</li> </ul> <p>Core content.</p> <ul style="list-style-type: none"> <li>• Further Matrices</li> <li>• Further Complex numbers</li> <li>• Advanced Integration Skills</li> <li>• Polynomial approximations Maclaurin Series</li> <li>• Polar co-ordinates and integration</li> <li>• Hyperbolic Trug functions</li> </ul>

<p><b>Mercian MAT Subjects</b></p>		
<p><b>Ancient History</b></p>	<p>An A Level in Ancient History will allow you to study the ancient world, its momentous events and its larger-than-life personalities, including: Alexander the Great, Caligula and King Leonidas of Sparta. You will see how ancient civilisations like the Romans, Greeks and Egyptians have shaped the world that we live in today and develop a passion and curiosity for antiquity. The course will also allow you to gain a greater understanding of the literature of the period, including the first great historians like Herodotus, Thucydides and Livy.</p>	
<p><b>Drama &amp; Theatre Studies</b></p>	<p>Drama and Theatre studies is a challenging subject suited to students who are creative, questioning and observant. Students who enjoy reading and watching plays, taking part in them; acting and directing will find this course extremely stimulating and rewarding. Group work and collaboration is at the heart of this course and students learn through experience, seeing theatre and making theatre for themselves. It is a varied course with students studying a wide range of theatrical styles, plays, practitioners and theatre conventions; learning about approaches to theatre and applying knowledge to practical and theoretical components.</p> <p>The teachers in the Drama department are experienced and work to encourage students to become independent learners; a learner who is self-motivated, disciplined and confident. During the course you will develop your acting skills, take part in workshops and develop your understanding of 'The Art of Performance'. You will also develop your writing skills as you critically analyse scripts and performances over the duration of the two years.</p> <p>Skills: Pupils of Drama will develop skills such as:</p>	

# QMGS Key Stage 5 Curriculum Topics

Knowledge and understanding of a range of practical drama skills including:

- Acting: Directing: Costume: Set designing: Technical design
- Understanding of the major theatrical styles
- Performance techniques – interpretation, voice, physicality, stage relationships with others
- Collaborative skills with others to present a performance piece
- Communication and problem-solving skills
- Design skills – interpretation, visual and design impacts and set creation
- Technical abilities – lighting and sound design, special effects, technology and appropriate equipment
- Practical skills – from making masks and building sets to creation of period style and make-up
- Confidence, team-building, communication and other life skills.

There will be the opportunity to devise original work, develop understanding of how plays relate to historical, social and cultural context and consider the connections between theory and practice. In addition to Drama lessons students will go and see a number of live performances, access online Digital theatre shows and have the opportunity to work with a Theatre Company in a workshop context.

There are three components to the A-level:

## **Unit 1: Drama and Theatre:**

This unit prepares you for the final written examination and during this module you will develop understanding of the theatrical processes and practices involved in interpreting and performing theatre, how conventions, forms and techniques are used in drama and live theatre to create meaning and how creative and artistic choices influence how meaning is communicated to an audience. Using a practical approach, you will learn how style, genre, form, structure, language, stage directions and character construction are used and applied to convey meaning and how performance texts are informed by their social, cultural and historical contexts and are interpreted and performed for an audience. Students will analyse and critique live theatre during the course and apply knowledge and understanding of theatre to interpret two set texts from either a performance or director perspective.

### **Our set texts are:**

- 'A Servant to Two Masters' by Carlos Goldoni: A Commedia Dell'Arte style play, expect huge laughs and lively fun from this physical, energetic comedy.
- 'Our Country's Good' by Timberlake Wertenbaker: A play that is set in the 1780's and explores the relationships between a group of Royal Marines who have been sent over to Australia and the convicts they have been sent over with.

## **Unit 2: Creating Original Drama:**

Students learn how to create and develop original devised ideas to communicate meaning as part of the theatre making process. You will develop ideas, research relevant processes and theatre practices, apply what you have learnt from live performances, explore devising work, rehearsal methods and refine

# QMGS Key Stage 5 Curriculum Topics

	<p>work in progress. You will study the work and methodology of one influential practitioner and apply working methods, principals, artistic intentions, style and conventions of this practitioner to your final piece. The assessment also includes preparatory and development work, shown through a working notebook.</p> <p><b>Unit 3: Making Theatre:</b></p> <ul style="list-style-type: none"> <li>You will learn how to contribute to text-based drama in a live theatre context for an audience. Working in groups to develop and present three extracts from three different plays. You will learn how to interpret texts, create and communicate meaning, realise artistic intention in text-based drama, analyse and evaluate your own work.</li> <li>The third extract must be influenced by the methodology and practises of an influential Practitioner, Director, Theatre Company or Designer (different to the one studied in the devised module). You will develop understanding and knowledge of the connections between theory and practice in a range of periods, theatrical styles, social, historical and cultural contexts. A reflective report is also submitted which documents, analyses and evaluates the theatrical interpretation of all three extracts.</li> </ul>
<p><b>German</b></p>	<p><b>Paper 1 Listening / Reading / Writing.</b>          Aspects of German-speaking society          Artistic culture in the German-speaking world          Multiculturalism in German-speaking society          Aspects of political life in German-speaking society          Grammar</p> <p><b>Paper 2 is a written paper assessing:</b>          One text and one film or two texts from the list set in the specification          Grammar</p> <p><b>Paper 3 is the Speaking Test</b> with Stimulus Card material followed by a more general conversation assessing:          Individual research project          One of four sub-themes i.e. aspects of German speaking society or artistic culture in the German speaking world or multiculturalism in German speaking society or aspects of political life in German speaking society.</p> <p>The course builds upon and develops the skills of speaking, listening, reading and writing which have been acquired in GCSE work. An important difference is that the subjects concentrate not on basic transactional language but on wider social, political, economic and cultural issues. The course will develop not only skills, but also understanding of the grammatical systems of the languages studied; and give a better insight into the way of life, history, geography, political system, economic life and customs of countries where the languages are spoken. Students may also have the opportunity to study the literature of the country and where possible to visit the theatre, cinema or watch video and on-line material.</p>

# QMGS Key Stage 5 Curriculum Topics

	<p>Furthermore, experience of a working environment using languages is underlined by the possibility of a programme of work experience in Europe for Year 12 students and/or a study tour in the Summer</p> <p>Topics include aspects of daily life, leisure and entertainment, communication, media and popular culture.</p>
<b>Music</b>	<p>Over the two year course students cover Listening, Composing and Performing in three units</p> <p><b>Subject Content:</b> The course offers a variety of alternatives which enable students to submit work demonstrating their strengths in the subject. There are three units of study. External assessments take place in May of Year 13. In units 1 and 2 Students may opt for Option A or B. This flexibility means they can gain up to 35% in the option for higher study and 25% in the option where they choose the smaller amount of study.</p> <p><b>Unit 1: Performing (35% or 25%)</b> Here students have the opportunity to perform both as a soloist and in ensembles. Performances can take place on any instrument, including voice. A recital is prepared for Year 13 and should last either for six to eight minutes (Option A) or twelve to fifteen minutes (Option B)</p> <p><b>Unit 2: Composing (25% or 35%)</b> Students are required to compose two pieces. One from a brief set by the board and one working from their own brief. For option A, an extension to their composing comprises of four-part harmony and two-part counterpoint.</p> <p><b>Unit 3: Listening and Appraising (40%)</b> This work is undertaken through the study of four areas. Areas 1 and 2 are compulsory and a further two are selected from areas 3-6. They are</p> <ol style="list-style-type: none"> <li>1: Instrumental Music of Haydn, Mozart and Beethoven</li> <li>2: Popular Song: Blues, Jazz, Swing and Big Band</li> <li>3: Developments in Instrumental Jazz from 1910 to the present day</li> <li>4: Religious Music of the Baroque period</li> <li>5: Programme Music</li> <li>6: Innovations in Music 1900 to the present day</li> </ol>
<b>Photography</b>	<p>Photography at A level is an Art and Design based course.</p> <p><b>Component 01: Personal investigation:</b> During the personal investigation you will produce two elements:</p>

# QMGS Key Stage 5 Curriculum Topics

	<ol style="list-style-type: none"> <li>1. A portfolio of practical work showing your personal response to either a starting point, brief, scenario or stimulus, devised and provided by you or your staff.</li> <li>2. A related study: an extended response of a guided minimum of 1000 words.</li> </ol> <p><b>Component 02: Externally-set task</b></p> <p>The early release paper will be issued to you by your staff from the exam board and will provide you with a number of themes, each with a range of written and visual starting points, briefs and stimuli.</p> <p>During the course you also study a range of themes to extend your photographic horizons. These include topics such as:</p> <ul style="list-style-type: none"> <li>• Portraiture • Landscape photography • Commercial photography • Still-life photography • Documentary photography • Experimental imagery • Editorial photography • Photographic installation • The photographic process • Moving image • Animation Textile Design</li> </ul> <p><b>Assessment:</b></p> <ul style="list-style-type: none"> <li>• Personal investigation (01) - 120 marks non exam assessment (internally assessed and externally moderated) this will be 60% of total A level</li> <li>• Externally set task (02) 80 marks - 15 hours non exam assessment.</li> </ul>
<p><b>Physical Education</b></p>	<p>Three units (units 1,2 and 3) are <b>assessed by exam</b> and marked by OCR (70% of qualification). The final unit is <b>coursework based</b> which is internally assessed by teachers and externally moderated by OCR. This section requires performance or coaching in a selected sport and a verbal evaluation of performance and action plan to improve (30% of qualification)</p> <p>You will study four units that are all mandatory.</p> <ul style="list-style-type: none"> <li>• Physiological factors affecting performance</li> <li>• Psychological factors affecting performance</li> <li>• Socio-cultural issues in physical activity and sport</li> <li>• Performance in physical education</li> </ul> <p>These units will give you an <b>understanding of sport in the wider contexts</b> of coaching and leadership, anatomy and physiology, the body's short and long term responses to physical activity, the framework of sport in the UK and the organisations involved and the psychological challenges that sport can provide. You will also develop transferable skills such as <b>planning, communication, adaptability and leadership</b>.</p>
<p><b>Politics</b></p>	<p><b>Subject Content:</b></p> <p><b>Unit 1: Government and Politics of the UK People, Politics and Participation:</b> An introduction to the political world: Why do people vote? Who do they vote for? How do elections work? Why do people take part in political protests? Governing Modern Britain</p>

# QMGS Key Stage 5 Curriculum Topics

How is Britain governed? How are laws made? Who holds the real power in this country?

## **Unit 2: Government and Politics of the USA Politics of the USA**

This unit looks at how Politics in the USA is conducted. How is the President elected? What is the difference between a Primary and a Caucus? Why do Republicans and Democrats dominate? How much power do pressure groups in the USA wield?

Government of the USA

How is the USA governed? What is the difference between a senator and a governor? How much power does the president really have? What is the constitution?

## **Unit 3: Political Ideas**

Students study 4 ideologies including the 3 core ideologies of liberalism, conservatism and socialism. They will also study one non-core ideology, Nationalism.
